Course Title: Cascading Style Sheets in a Day

Course Description:
Cascading Style Sheets (CSS) provide an easy but powerful way to control the style and appearance of the content on web pages. A single style sheet can control a whole web site, providing consistency across the site. CSS has replaced HTML tags as the dominant way to add styling to Web content. The CSS language syntax is compact and easy to learn.

Course Prerequisite(s):
HTML

Course Objectives:
Learn CSS concepts, syntax selection techniques. Control display of images, colors and typography.

Textbook(s) Suggested: OPTIONAL
Publisher: O'Reilly; Author: McFarland; ISBN: 978-1491918050

Certification Notes: Core Course for Web Certification

Next Class Possibilities:
Introduction to JavaScript
