How are your Math skills?
Need a review?

Gain confidence in your math ability!

Plan to attend the Math Preparation Workshops!

Who: All students at Collin College are invited to attend one or all of the workshops.

Where: Spring Creek Campus, registration will be upstairs in the K wing

When: 1:00-5:00 pm on Friday, January 22, 2016 and on Sunday, January 24, 2016

Each workshop is 55 minutes.

- **Review of Beginning Algebra (MATH 0305):** This workshop will be a review of order of operations, linear equations, and arithmetic of polynomial expressions. **1pm & 2pm**

- **Review of Intermediate Algebra (MATH 0310):** This workshop will be a review of functions, factoring, quadratic equations, exponents, and rational expressions. **1pm & 2pm**

- **Review of College Algebra (MATH 1314):** This workshop will be a review of the difference quotient, logarithms, compositions of functions, inverse functions, and, if time permits, piecewise functions. **2pm, 3pm & 4pm**

- **Trigonometry Review (MATH 1316):** This workshop will be a review of the unit circle, reciprocal identities, quotient identities, Pythagorean identities, and inverse trigonometric functions. **3pm & 4pm**

- **Review of PreCalculus (MATH 2412):** This workshop will be a review of linear inequalities, rationalizing, complex rational expressions, radical expressions, and graphing trigonometric functions. **4pm**

*No pre-registration required!*
